# Recyclables and Garbage Separation & Disposal Methods

Inquires Waste Reduction Promotion Division 3R Promotion Group ☎(028)632-2414 /Collection Guidance Group ☎(028)632-2423 Issued October 2024

## Recyclables (9 categories)

Day

### ① Newspaper

Newspaper (Including ads)

- Tie in a crisscross fashion using string.

### ② Cardboard

Cardboard

(Corrugated cardboard with a wavy cross section)

- Remove any adhesive tape or any other foreign materials and tie in a crisscross fashion using string, even when just disposing of one piece.

### ③ Magazines & Other Paper

Magazines & publications

Misc. papers such as paper boxes and envelopes, etc.

- Tie magazines in a crisscross fashion using string. For other paper, please remove clips or any other foreign materials, put in a paper bag, and tie in a crisscross fashion using string or put in a clear or semi-transparent plastic bag.

### ④ Paper Beverage Cartons

Paper beverage cartons for milk or juice, etc. that are white inside

- Rinse lightly, cut open to dry, and tie in a crisscross fashion with string or put in a clear or semi-transparent plastic bag.
- Remove any plastic spouts, etc.

### ⑤ Cloth

Clothing such as shirts and cloth such as towels

- Wash, fold, and put in a clear or semi-transparent plastic bag.
- Do not put out items on rainy days as they will get wet and may become moldy in storage.

### ⑥ Glass Bottles & Cans

Glass bottles up to 1.8ℓ

Cans up to 20cm

Glass bottles and cans for beverages, food, and medicine Cosmetic bottles

- Remove caps, rinse glass bottles and cans, and put them together in a clear or semi-transparent plastic bag. Broken bottles can also be disposed.

### ⑦ PET Bottles

This is the symbol!

PET bottles with the PET symbol for everages and specified seasonings

- Remove caps and labels, rinse, and put in a clear or semi-transparent plastic bag without flattening them.

### ⑧ White Styrofoam Trays

White food trays with no design or color used for meat, fish, prepared food, etc.

- Remove food waste and put in a clear or semi-transparent plastic bag.

### ⑨ Plastic containers & packaging

Plastic containers and packaging no longer needed after removing or consuming the contents of the product.

Put in a clear or semi-transparent plastic bag.

- Wipe or rinse off any dirty items.
- If crumbs easily come off of snack, etc. bags, they do not need to be rinsed out.
- ※Items that are difficult to clean are to be disposed of as combustible garbage.
- ※Remove plastic bottle caps and pumps, etc. and dispose of them together.
- ※Price tag, etc. stickers do not need to be removed.

This is the symbol!

## Combustible Garbage

Combustible garbage under 50cm

Day

Kitchen waste

Plastic products

Non-recyclable paper (Waterproof paper, thermal paper, etc.)

Trimmed branches, etc.

Put in a clear or semi-transparent plastic bag.

- Remove moisture from kitchen waste.
- Flush diaper excretion down the toilet.

Trimmed branches (Length less than 50cm Thickness 10cm or less)  
• Tie together in a bundle that can be held in one hand.  
※Up to 3 bundles (3 bags)

## Incombustible Garbage

Incombustible garbage less than 50cm

Wednesday

Glass bottles, cans, and glass products other than chinaware and recyclable materials

Put in a clear or semi-transparent plastic bag.

- Tie umbrellas and other stick-shaped items (up to 1m) in bundles of about 3 using string.

Remove batteries from household appliances.

- Dispose of removed batteries as hazardous garbage (batteries).
- Household appliances from which batteries cannot be removed cannot be disposed of at garbage stations. Place them in the small appliance collection box or take them directly to a waste disposal center. (Refer to back)

## Hazardous Garbage

(2 categories)

Day

#### ① Batteries

Dry cell batteries, Coin batteries, Electronic cigarettes, Button batteries Small rechargeable batteries, Mobile batteries

Put in a clear or semi-transparent plastic bag.

- To avoid the risk of accidents such as overheating, ignition, rupturing, etc., apply tape (sellotape, vinyl tape, etc.) to the electrodes to insulate them.

#### ② All others are hazardous garbage

Light bulbs, fluorescent lights, mercury thermometers, cutting items, spray cans, lighters, etc.

Put in a clear or semi-transparent plastic bag.

- Use lighters and spray cans until the gas is completely gone. (Make holes in spray cans in a well-ventilated area, such as outdoors.
- Wrap blades of cutting items in paper or cloth.

## Oversized Garbage

Garbage 50cm – 2.5m and 100kg or less

Take to the waste disposal center (Note 1) (free of charge) or request collection (charge)

Bicycles

Futon

Wardrobes

Skis

(Note 1) Clean Park Mobara, Clean Center Shimotawara (Refer to back for the amount, etc. that can be brought in)

○Door-to-door collection requests

**Oversized Garbage Collection Center**

☎(028)643-5371

Mondays- Fridays, 9:00AM~5:00PM  
840 yen/item, up to 5 items per time

Separate garbage by category and put out for collection on the specified day before 7:00AM or 8:30AM (the time differs depending on area). Garbage collection takes place as scheduled on national holidays as well. However, it does not take place on Saturdays, Sundays, and the year-end and New Year holidays.

英語

**Garbage not collected or disposed of by the city**

These items are not collected at garbage stations, nor can be brought to a waste disposal center

**4 Types of Home Appliances (Recycled by Manufacturers)**

Air conditioners TVs (cathode ray tube, organic EL, liquid crystal type, plasma type) Refrigerators & freezers Washing machines & clothes dryers

To dispose of such items, contact a retailer or take the item to a specified depot.

**●Contacting a retailer**

Make a request to the store at which you bought the appliance or are buying its replacement, or request disposal by a licensed collection and disposal business. In some cases, there may be shipping costs, etc. required in addition to the recycling fee. For details, please inquire at an appliance store or licensed collection and disposal business.

**●If transporting by yourself to the designated drop-off location**

①Find out the name of the manufacturer and size of the appliance to be disposed of and confirm the recycling fee.

②Go to the post office and transfer the recycling fee. (An additional bank transfer fee will be charged)

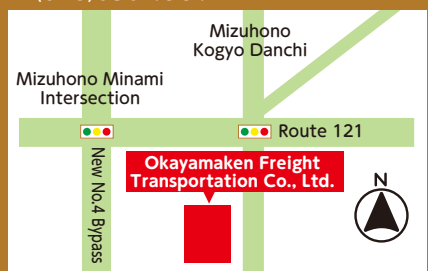

③Attach the home appliance recycling ticket to the appliance to be disposed of and take it to the following drop-off location.

※The home appliance recycling fee differs by manufacturer. For details, please confirm with the Home Appliance Recycling Ticket Center below.

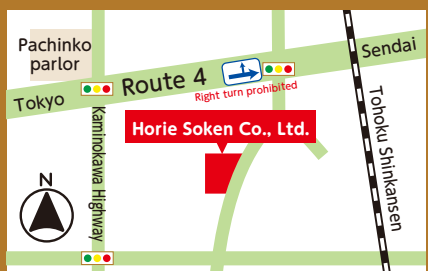

**[Depots]**

Reception hours/9:00AM-12:00PM, 1:00PM-4:30PM  
Closed/Sunday, Holidays, Obon, Year-end & New Year holidays Some Saturdays (Please inquire)

(Garbage not collected or disposed of by the city)

**Used small household appliances**

To promote the recycling of rare and precious metals contained in used small home appliances, the city has set up dedicated collection boxes for these appliances in a number of public facilities. Your cooperation is appreciated.

**●Acceptable items**

No longer used small home appliances that can fit in the slot of a specified collection box  
(Items less than 50cm wide x 15cm tall x 30cm deep)

**●Facilities with a collection box**

City Hall Main Building, Environmental Learning Center, Chiku Shimin Centers, and Libraries

※Please refer to the city's website for updated information on collection box locations

**●Note**

- Please delete data containing personal information ahead of time.
- Remove batteries and dispose of them as hazardous garbage (batteries).
- If the batteries cannot be removed, please put it directly into the collection box as is.
- Dispose of electronic cigarettes and heated cigarettes as hazardous garbage (batteries).
